

25MM OVER FASCIA VENTILATOR (0.5M)

REF: AIR9645

BOTH 0.5M SECTIONS CAN BE INTERLOCKED MAKING A 1M VENT

ALL UNITS MEASURED ARE IN MILLIMETRES

General

The AIR9645 over fascia ventilator has been designed to establish a clear airflow into the cavity between the fascia board and the felt; this makes it a great choice for situations like re-roofing or a new build. The AIR9645 has a grill specifically designed to be wide enough not to be blocked by water droplets, debris or paint. But still able to stop large insects from gaining access. The AIR9645 vent is supplied in 0.5m sticks.

Fitting instructions

The AIR9645 over fascia ventilator should be positioned directly on top of the fascia board; with the stop section flush against the vertical edge of the fascia board. It should be nailed down through the anchor holes given across the entire length of the eaves.

Details

REF	AIR9645	MANUFACTURING PROCESS	Injection moulded
BOX SIZE (MM)	315 x 280 x 510	MATERIAL	PPC - Polypropylene copolymer
PALLET SIZE (M)	1 X 1.2 X 2		
FREE AREA	25,000mm ² (EQUIVALENT TO A 25mm GAP)	ASSOCIATED PRODUCTS	AIR500, AIR700, AIR1200, AIR1300, AIR1400, AIR1500
PACKING	Product per box = 50, Boxes per pallet = 40		
WEIGHT	Product = 112g, Box = 6kg, pallet = 255kg	COLOUR	BLACK
