

10mm 3 IN 1 EAVES PACK

REF: AIR1506

General

The 3 in one eaves vent pack provides a simple but effective solution to eaves ventilation by providing all the components necessary in one pack. Packs are available for continuous eaves ventilation of 10,000mm²/m. one whole pack consists of fascia vents, roll out rafter trays and underlay support trays for a 6m length of roof. This product is quick and easy to install, suitable for new build and re-roofing applications. Designed for 400mm,450mm and 600mm centres.

Fitting instructions

To install, nail the fascia vents directly onto the fascia board using 50mm x 3.35 nails, the roll out rafter is then rolled over the rafters to provide ventilation above the rafters, fix this to the rafters using clout nails or staples. The underlay support tray is then place over the top of the fascia vent and either nailed using clout nails or stapled through its top edge onto the rafters.

10mm EAVES PACKS AVAILIABLE

	CODE	WIDTH OF ROLL OUT RAFTER TRAY	OVERFASCIA VENT	UNITS PER PALLET
	AIR1500	6m x 300mm	10mm	60
